SECURE

Where do you keep your prescription medications?

- Nearly 7 out of 10 American adults regularly use prescription medications (Mayo Clinic Study).
- Keep prescription medications in a secure location in your home, not easily accessible by unintended audiences.

MONITOR

Do you know how many pills should be left in the container?

- 4.3 billion prescription medications are filled a year in the United States (Time Study).
- Be aware of how many pills are left in containers, and the number of refills remaining.

DISPOSE

Do you know how to safely dispose of prescription medications?

- 70% of prescriptions remain unused and available in homes (DEA).
- Flushing or dumping medications is harmful to the water table and environment. To properly dispose, simply remove the pills from their containers and place them in to the drop box. No sharps or liquids accepted.
